Experience

Tassaract 2022 - Present

Senior Software Developer

As a senior software developer, I specialize in designing and implementing robust software solutions, ensuring code efficiency and scalability. I conduct code reviews, troubleshoot technical issues, and drive continuous improvement in development processes. Additionally, I mentor junior developers and contribute effectively to the development team.

Tassaract 2021 - 2022

Junior Laravel Developer

As a Junior Laravel Developer, I assist in the development of web applications using the Laravel framework. Responsibilities include writing clean and efficient code, debugging, and collaborating with senior developers to implement new features. I also participate in code reviews and contribute to the overall improvement of projects.
